WHO AM I?

Conscientious, dedicated, and hard-working explorer, looking for opportunities to learn, to network and to help others. Constantly pushing myself to grow as a software developer and as a person. Always searching for new ideas and experiences so that others can rely on me for help. In my free time, you can often find me rowing with GT Crew or reading a comic book.

Teamwork   Adaptability   Data Analysis   SEO   Customer Relations

EXPERIENCE

5/2020 – Present
Pittsburgh, PA

Director of Technology   **S.K.Y. Development Athletics**

- Built a website from scratch using Wordpress to help a sports training business thrive during pandemic quarantine.

- Created and implemented a system for customers to sign up for appointments.

- Measured and analyzed website usage data to optimize search engine returns and refine the customer interface.

```
Wordpress  /  PHP
```

3/2019 – 9/2019
Los Angeles, CA

Software Engineering Intern   **Adventure Corporation**

- Focused on creating brand engagement and consumer loyalty platforms, primarily in the Entertainment industries, using blockchain/NFT solutions.

- Wrote cumulative reports for current topics in cryptocurrency such as non-fungible tokens and various case studies.

- Assisted other interns by writing coding tutorials for both React and Node.JS.

- Created a unique, tradable non-fungible token on the Ethereum main network.

```
Node.JS  /  React  /  Solidity
```
